

Leading for Change: Special Edition Flying Start Webinar, Friday 26 Sep

Q & A summary

Q: When will services be given instructions for submitting enrolment data?

A: This week, we'll be sending providers and their services an Excel spreadsheet to enter their projected Term 1 enrolment data which is due for submission in November.

A step-by-step guide and a link to iApply will follow in the coming weeks to help services feel confident and prepared when it's time to submit.

In parallel, we're actively developing a secure, password-protected online portal that will centralise the collection of projected enrolment data and other key information.
